

IT Support Policy

Employees must raise IT support tickets through the internal portal.

Laptop replacement requests are processed within 5 business days.

VPN access is mandatory for accessing internal systems remotely.

Password resets require manager approval for privileged accounts.

Software installation requests must be approved by the IT security team.

Employees should report phishing emails immediately to the cybersecurity team.

Company email accounts are monitored for security compliance.

Multi-factor authentication is required for all remote logins.

Lost devices must be reported within 24 hours.

Shared passwords are strictly prohibited.
